GREETINGS CARDS - ORDER FORM

The Chile Solidarity Campaign has produced a set of full colour greetings cards, reproductions of patchwork pictures made by the women in the shanty towns of Chile. All of the designs are taken from the tapestries from the exhibition which has been travelling round Britain. Each card has an explanatory caption on the back, but the inside is left blank for your own message.

Four of the card designs are reproduced overleaf. The captions to them are as follows:

1. *A memory of the progress made during the Popular Unity government in developing the National Health Service. The military junta has not only killed, imprisoned and driven into exile many doctors, but has sold off most of the health service into private hands. Medical attention is now unavailable to large sections of the population.*
2. *"Never give in or stray from the road".*
3. *Chile's workers, their products, the whole economy dominated by the US\$. The vampire bats are the four members of the military junta.*
4. *More than 200,000 people, mainly workers, have been detained for political reasons. Their families in the shanty-towns have to go on with life, but the world is split in two.*

The themes of the other four cards are: the children's canteens, disappearances, the junta's economic policies, and the search for freedom.

Price: Set of 8, £1 + 10p. postage (for each additional set add another 7p. for postage). Price includes envelopes.

Please complete and return to: Chile Solidarity Campaign, 129 Seven Sisters Road, London N7.

Please send me ... set(s) of greetings cards
